

# The **Ultimate Strut**<sup>tm</sup> Carbon Fiber Support for your Porsche ... or other support needs

## Leave the Broomstick at Home!

Moveable nylon receptacle and high-strength magnets ensure no slip support

911/912 trunk - uses existing hole; no drilling

### Features and Benefits:

- Lightweight: 3 oz. - Carbon fiber rod, race-quality, aluminum rod bearing and stainless steel, nylon & zinc-plated OEM-quality hardware (lighter than a mini IPOD!).
- No drilling - in 911/912 trunk as shown (uses existing mounting hole).
- 15 minute installation - maybe only 10 minutes
- Drooping gas struts? - Buy no more, ever.
- Dump the broomstick - unless it's really light.
- Available soon at a website near you
- Applications: 911, 912

**\$39.95** + shipping (rear kit available too)

### Our other products:

- Gate Shift kit (901/915, 911/912/914/914-6)
- HEETSHEET ('69-'04 911s, 2.0 - 3.6)
- MPC (multi-purpose-cooling)
- Ti Brake Shields (selected 911s)
